

THE ONE STOP SHOP FOR MEDIUM-VOLTAGE COMPONENTS

FT-2 Phase Comparator

Safe, easy to use & effortless phase comparison. Conforms to CEI 61958.

Mevoco's FT-2: Effortless Phase Comparator

⚡ Mevoco's FT-2

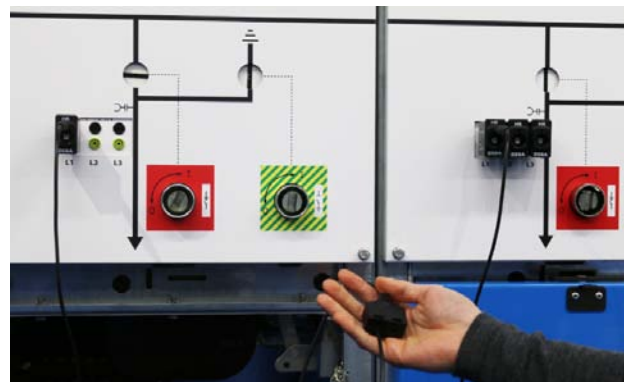

Mevoco's FT-2 allows for easy phase comparison: the device is used to check "In-phase" or "Out-of-phase" condition.

Phase comparators are two-pole testing units for determining phase equivalence as well as differences in potential. A lamp lights up when there is a difference in potential or phase concordance. The FT-2 thus provides a highly precise decision-making tool for imminent switching operations.

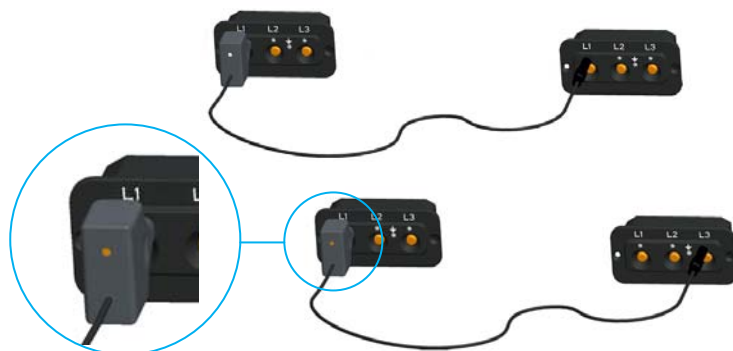

Our phase comparator is IP2XC certified. The FT-2 is compatible with the following voltage detectors: HR-2 (DF-2 and DI-2 cubicles) and HR-3 (DR-6, DF-3 and DW-2 cubicles).

The FT-2 is compatible with HR-2 & HR-3 voltage detectors.

Phase concordance on DF-2 cubicles with HR-2 VDS

Phase concordance on HR-3 VDS

	L1	L2	L3
L1		⊙	⊙
L2	⊙		⊙
L3	⊙	⊙	

A bright red lamp indicates a difference in phases.

For more information on HR-2, HR-3 or our other products, contact our sales team
